Portfolio (Repo) | GitHub | LinkedIn

I am a web developer proficient in React, HTML, CSS, and Node.js. I have 8 months experience with JavaScript and HTML/ CSS which has allowed me to hone my React skills as well. I also have experience with Node.js in building servers/APIs with express and knex as well as with PostgreSQL.

PROJECTS

MovieRec | React | CSS | Node | Express | Knex | PostgreSQL
Web app for users to create personal notes and folders with descriptions
- Used React Router, React Context for global state, fetch for API calls
- Designed and built entire app from scratch

Bookmarks | jQuery | JavaScript | HTML | CSS | 3rd-Party API
Web app letting users input URL bookmarks, descriptions, and ratings
- Used React-like functionality with templates and JavaScript modules
- Designed and built entire app from scratch

Movie Quiz | jQuery | JavaScript | HTML | CSS
Web app letting users input URL bookmarks, descriptions, and ratings
- Implemented main render and connecting functions for single page web app
- Designed and built entire app from scratch with a small team
